I am a researcher mainly interested in human behaviour, as well as quantitative methods and reproducible science.

About me

I am a Full Professor and researcher at **EvoCo: Human Behaviour and Evolution Lab**, leader of the **CODEC: Cognitive and Behavioural Sciences Research Group** (classified as **A1**), and director of the **MetaCiencia** research incubator, within the Faculty of Psychology at the Universidad El Bosque in Bogotá, Colombia. I am also a founding and board member of the **Latin American Association for Human Behavioral and Evolutionary Sciences (LAAHBES)**.

Research: My work focuses on human vocal communication, mate choice, musicality, and hormonal influences on behaviour. I have published pioneering studies on vocal modulation in social and courtship contexts.

Open Science: I am interested in quantitative methods and programming, especially in **R**, as tools to promote open and reproducible science. In line with these values, I serve as *Data Editor* at **Proceedings of the Royal Society B**, *Associate Editor* at **Evolutionary Dynamics of Human Behavior (EDHB)**, and as *recommender* (associate editor) at **PCI Registered Reports**. In 2026, I also founded and now direct **MetaCiencia**, an open research incubator on scientific reproducibility, transparency, and metascience education, affiliated with CODEC.

Skills

Programming	R (advanced: all data wrangling, analysis, plots and tables —and even this CV— made in R)
Reproducible Reports	Markdown/ R Markdown / Quarto (including LaTeX and HTML code). Version control: Git and GitHub
Quantitative Research	General and generalised models, linear mixed-effects models, multi-model inference, machine learning
Software	RStudio , Visual Studio Code , Praat , Audacity , InkScape , Zotero
Languages	English/Spanish (native)

Research

Research Areas	Human voice • Vocal modulation • Mate choice • Human behaviour
Primary Research Methods	Experimental designs • Acoustic analysis • Geometric morphometrics • Stimuli rating

Research Supervision

POSTGRADUATE

The Faculty of Psychology at Universidad El Bosque does not offer research degrees, and all M-level courses are professional masters. Because of this, opportunities to supervise postgraduate students are limited, and most of my postgraduate supervision has been external.
